EDUCATION

Govind Ballabh Pant Institute of Engineering and Technology

Bachelor of Technology in Computer Science; CGPA: 8.5

Pauri, Uttarakhand

Expected Graduation: June 2026

TECHNICAL SKILLS

Languages: C/C++, Java, Python, JavaScript, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material-UI

Backend: Node.js, Express.js, RESTful APIs, Spring Boot

Databases: MongoDB, MySQL

Mobile Development: React Native

Tools & Technologies: Git, GitHub, Figma, Canva, Postman, AWS, Android Studio, IntelliJ, PyCharm

Core Competencies: Data Structures & Algorithms, System Design, Full-Stack Development, UI/UX Design

EXPERIENCE

Full Stack Developer

Steploops Technologies Pvt. Ltd.

Oct 2025 – Present

Dehradun, India

- Developing scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB
- Collaborating with cross-functional teams to design and implement new features and optimize application performance
- Building RESTful APIs and integrating third-party services to enhance application functionality
- Implementing responsive UI designs and ensuring cross-browser compatibility for seamless user experience

Webmaster

IEEE GBPIET Student Branch

Jan 2024 – Apr 2025

GBPIET, Dehradun

- Led website development and maintenance for IEEE student branch, serving 500+ members
- Designed and implemented event registration systems and member dashboards using modern web technologies
- Managed technical infrastructure and ensured 99.9% uptime for critical branch operations
- Coordinated with team members to deliver technical solutions for various IEEE events and initiatives

PROJECTS

StplNext - Business Management Platform | Next.js, TypeScript, Tailwind CSS, Node.js

2025

- Developed enterprise business system with modern UI/UX and optimized server-side rendering.
- Integrated contact form with Resend API for email automation, processing 100+ client inquiries with real-time validation
- Built modular architecture with reusable TypeScript components and responsive Tailwind CSS design for cross-device compatibility.
- [GitHub](#) | [Live Demo](#)

Decentralized Voting System | Ethereum, Solidity, Web3.js, React.js, Node.js

2024

- Built a blockchain-based voting platform using Ethereum smart contracts ensuring secure, transparent, and tamper-proof elections
- Implemented user authentication system with MetaMask integration for secure voter verification and ballot casting
- Developed real-time result tracking dashboard displaying live vote counts and election statistics using Web3.js
- Deployed smart contracts on Ethereum testnet with gas optimization reducing transaction costs by 30%
- [GitHub](#) | [Live Demo](#)

TechFest Website - Spandan 2.0 | React.js, JavaScript, HTML, CSS

2024

- Developed dynamic and responsive website for college TechFest with mobile-first design principles
- Integrated event details, schedules, and registration functionality with reusable React components.
- [GitHub](#) | [Live Demo](#)

ACHIEVEMENTS & CERTIFICATIONS

Certifications: Python Mastery, JavaScript Fundamentals, Introduction to Frontend Development

Leadership: Led technical initiatives at IEEE GBPIET, mentored junior students in web development
